- ◆ Excessive physical or electrical stress or operation under abnormal environmental conditions, such as an unstable power supply.
- ◆ Damage caused by the equipment or system in which the product is installed or used.

- ◆ Damage resulting from force majeure events, such as natural disasters or other unforeseen accidents.

Warranty Claims

If you believe your TiMOTION product is experiencing a defect covered under the terms of this warranty, please follow the steps outlined below to initiate a claim. This process ensures that your request is handled efficiently and in accordance with TiMOTION's warranty policies.

1. Notification of Defect

If a covered defect is discovered during the warranty period, you must notify TiMOTION in writing with a detailed description of the issue. This notification must occur within the warranty period.

2. Issue Verification

After receiving your customer complaint, TiMOTION may request you to perform initial troubleshooting steps to verify the reported issue.

3. Product Return and Shipping Responsibility

If TiMOTION requests the product to be returned, it must then be shipped to TiMOTION or another address designated by TiMOTION, with all freight and insurance costs prepaid by the sender.

4. Evaluation and Resolution

Once your claim is received, and TiMOTION confirms that the issue qualifies as a warranty-covered defect (see "Warranty Conditions and Exclusions"), TiMOTION will, at its sole discretion, proceed with one of the following actions:

- ♦ Replace the defective product free of charge;
- ♦ Repair the defective product free of charge; or
- ♦ Provide a credit note equivalent to the value of the defective product.

If the product is replaced or repaired under warranty, TiMOTION will cover the cost of shipping the new or repaired product back to you.

TiMOTION will only reimburse return shipping costs if the return is pre-authorized in writing and the shipment was arranged in accordance with TiMOTION's shipping instructions, including carrier, method, and cost. Reimbursement is subject to prior approval and may be capped at a maximum value specified by TiMOTION.

5. If the Product Is Not Covered Under Warranty

If TiMOTION's failure analysis determines that the product is not defective under the warranty:

- ♦ TiMOTION may offer to repair the product upon your request. Labor, material, and shipping costs will be quoted based on the evaluation, and your approval will be required prior to service. Repairs must be performed exclusively by a TiMOTION authorized service or repair center.
- ♦ Alternatively, the product may be returned to you at your own cost and risk. TiMOTION also reserves the right to charge a fee for the time and materials used in analyzing the returned product.
